

# Broken Heart Syndrome

Voodoo Circle

I can hear a voice deep inside me  
Reminding me of all that was wrong  
I'd lost my faith, my hope and wisdom  
All I'd known is now gone

I heard the angels as they called out my name  
I knew my fire was burning low  
It's getting stronger now I can't stop this pain  
Seems like forever with nothing to show

My heart is aching and it's taking control  
I feel like I've been crucified  
I keep asking questions  
What's gone wrong with my soul?  
I just can't find the cure  
Of my a broken heart syndrome

Now my rage is growing stronger  
Feel like a devil in disguise  
I know that I can't wait no longer  
No it won't be my demise

I heard the angels as they called out my name  
I knew my fire was burning low  
It's getting stronger now I can't stop this pain  
Seems like forever with nothing to show

My heart is aching and it's taking control  
I feel like I've been crucified  
I keep asking questions  
What's gone wrong with my soul?  
I just can't find the cure  
Of my a broken heart syndrome
