

Enter My World of Darkness

Voodoo Circle

The darkness in falling
I feel my anger growing
The silence is haunting
I hear my destiny call

The day is done, and shadows fall
Evil shows it's face
The time has come, to guide them all
Walk with me to this distant place

Enter my world of Darkness
The light waits for me

My memory, is fading
No use in concentrating
Delusion, confusion
Dear God I'm drifting away

The day is done, and shadows fall
Evil shows it's face
The time has come, to guide them all
Walk with me to this distant place

When I sleep I dream that I'm awake
In a world without pain
Left alone and there's no escape
I'm going insane

Enter my world of Darkness
The light waits for me
