

## Enter My World of Darkness

Voodoo Circle

The darkness in falling  
I feel my anger growing  
The silence is haunting  
I hear my destiny call

The day is done, and shadows fall  
Evil shows it's face  
The time has come, to guide them all  
Walk with me to this distant place

Enter my world of Darkness  
The light waits for me

My memory, is fading  
No use in concentrating  
Delusion, confusion  
Dear God I'm drifting away

The day is done, and shadows fall  
Evil shows it's face  
The time has come, to guide them all  
Walk with me to this distant place

When I sleep I dream that I'm awake  
In a world without pain  
Left alone and there's no escape  
I'm going insane

Enter my world of Darkness  
The light waits for me
