

Heal My Pain

Voodoo Circle

You said you'd never leave me
You said you'd do me no harm
It's getting so hard to believe you
You'll never know the damage done

You turned my good day to a bad day
I'm going downtown, No I never thought you'd stray

You'd better run, you'd better hide
Gonna crawl these streets of hate to heal the pain inside

You know I lost my patience
Such a long time ago
Seems I've been running on empty baby
And that's what stopped the show

You turned my good day to a bad bad day
I'm going downtown, No I never thought you'd stray

You'd better run, you'd better hide
Gonna crawl these streets of hate to heal the pain inside
You'd better run, you'd better hide
Cause I'm tough enough, to search for you tonight
You'd better run, you'd better hide
Gonna crawl these streets of hate to heal the pain inside
