

# Heaven Can Wait

Voodoo Circle

My heart was broken, in the depths of the night  
It made me uneasy, but I always gave you a fight  
So I've been searching, didn't know I would find  
This love and tragedy, always brought me to my knees

I couldn't know that you had your complications  
All that we had, would be frozen in time

Two desperate souls; waiting to fall  
Could have been heaven tonight  
Do you feel my heartache?  
Could have been heaven tonight  
Heaven can wait, Heaven can wait

I listened to your lies it was my resurrection  
I lost my devotion, could you see it in my eyes?  
All this confusion made me loose my direction  
I've been searching for something that's hiding in me I  
And it's tearing me apart

I couldn't know that you had your complications  
All that we had, would be frozen in time

Two desperate souls; waiting to fall  
Could have been heaven tonight  
Do you feel my heartache?  
Could have been heaven tonight  
Heaven can wait, Heaven can wait
