

# Man and Machine

## Voodoo Circle

I've been speeding down this death defying road  
Feel the passion come alive  
Got the power, to pull this heavy load  
I was born, to survive

Got the need for speed inside my mind  
Can't get enough  
Hear the engine roar I'll be burning as I cross the line

Got to keep, my hands upon the wheel  
Gonna break the speed of sound  
In my heart I know what I must feel  
Drive the pedal down  
Uniting, man and machine

Tearing down the walls it's time to taste my wrath  
Casting shivers down my spine  
It's time to take control don't ever cross my path  
Sweet success, will be mine

Got the need for speed inside my mind  
Can't get enough  
Hear the engine roar I'll be burning as I cross the line

Got to keep, my hands upon the wheel  
Gonna break the speed of sound  
In my heart I know what I must feel  
Drive the pedal down  
Uniting, man and machine
