

# This Could Be Paradise

Voodoo Circle

So our mother natures crying  
Now she's screaming out in pain  
And our government is lying  
So who will now take the blame?

When we've wasted all we have  
Nothing will undo this crime  
If we open up our eyes, and see the signs

Something's wrong with the world today  
Now we've gone, and cast it all away  
Freedom will be our sacrifice  
This could be paradise  
Is this our only destiny  
Raging on, since the dawn of time  
Freedom will be our sacrifice  
This could be paradise

Maybe one day we got wake up  
And maybe start to realize  
That the hands of time are running  
Should we listen to there advice?

When we've wasted all we have  
Nothing will undo this crime  
If we open up our eyes, and see the signs

Something's wrong with the world today  
Now we've gone, and cast it all away  
Freedom will be our sacrifice  
This could be paradise  
Is this our only destiny  
Raging on, since the dawn of time  
Freedom will be our sacrifice  
This could be paradise
