

Wings of Fury

Voodoo Circle

Were out on a journey the one we call life
We still have a strong will to fight
Don't look to the future serenity's gone
The battle will rage through the night

So now we face the Jury
Take one look in there eyes
Nothing has changed
We ride on the wings of their fury

The prophets have spoken they fill us with lies
I feel the ends growing near
Can we dismiss all that we've begun?
We'll fight them back with our fear

So now we face the jury
Take one look in there eyes
Nothing has changed
We ride on the wings of their fury

Damage done
Shoot the gun

So now we face the jury
Take one look in there eyes
Nothing has changed
We ride on the wings of their fury

Damage done
Shoot the gun
