

Nightmares Musical Therapy

Voodoo Glow Skulls

Submerged in a pool of someone else's control
They've taken my emotions and imprisoned my soul
Forgetting my identity I'm mechanical from head to toe
Waking up in a cold sweat and afraid of my own shadow
NIGHTMARES!!
FUCKIN' NIGHTMARES!!
Another life that lives in my subconscious mind
One that's keeping me awake with the silence of the night
Visions of disorder flowing through my brain
Having to convince myself I'm not going insane

I'm living in a nightmare can't you see
I need some musical therapy
