

Shoot The Moon

Voodoo Glow Skulls

I can't stand all this common shit
Life's too fast for me
Everyone's trying so hard to impress
What is the real meaning of humanity
Morals and values are based upon
Your style of dress
Money in your pocket will become chump change

If we don't make any progress
Success and fitness are the trend of today
Infomercials keep us all in touch with modern technology
Let's shoot the moon! soon you will be shopping
Without leaving your front fucking door
The cost of living is never going away
Jobs are fading and poverty is on the rise
