

## Shoot The Moon

### Voodoo Glow Skulls

I can't stand all this common shit  
Life's too fast for me  
Everyone's trying so hard to impress  
What is the real meaning of humanity  
Morals and values are based upon  
Your style of dress  
Money in your pocket will become chump change

If we don't make any progress  
Success and fitness are the trend of today  
Infomercials keep us all in touch with modern technology  
Let's shoot the moon! soon you will be shopping  
Without leaving your front fucking door  
The cost of living is never going away  
Jobs are fading and poverty is on the rise
