

## The Devil Made Me Do It

### Voodoo Glow Skulls

I'm the bad apple that ruined it for the tree  
Always getting blamed and claiming not me.  
Just fifteen and a menace to society  
Not for a second, thinking of what's in store for me  
It's not my nature to act this way  
I guess I've never thought about it  
A young man tryin' to get his today  
But first, I guess I have hell to pay...

I used to rob from my mom and dad just to get a bag  
Then I'd smoke it all and laugh  
Stealing from my mom's purse  
Too stupid to realize it's me that's going to hurt  
A young ,dumb, full of cum kid livin' out the definition of sin  
.  
Got no tact, got no sense.  
Now it's time to pay the consequence...

As I got older I didn't stop  
Baggin' every house on my block  
Until one of my friend's got caught  
I remember wondering if the dime was gonna drop  
My parent's were always in shock  
Especially when they searched my room and found the ziplock  
Checking my eye's everyday  
And when they asked if I was high  
This is what I'd say.....
