

# Cosmic Armageddon Pt. I

Voyager

Million years, million tears  
Will we die again?  
Let us fight for our rights  
Start a new found world!  
Wretched earth has ended now  
It's calling all of our souls  
in the end it's all over now  
We're calling all of our souls

In this sphere a life of pain and fear  
A new beginning's near  
I will be free again  
Leave behind the men of weakened pride  
A new beginning's near  
I will be free again

A new beginning's saviour  
But our race is one of hate  
A new beginning's saviour  
But we decide your fate

A new beginning's one of pride  
In a million years of time  
I will never be the same
