

Lost

Voyager

Once again I am walking down the crowded path
Windows telling me to cry in the aftermath

My brain is overflowing
First signs of madness showing now!

I am lost
In this world of sensation
I am lost
In the overflow
I am lost
In the information

I am lost
So I'm laying low

So I cover my ears but still I'm hearing the sound
Won't anyone sleep until I drown?

My brain is overflowing
Second signs of madness showing now!
