## Lost

## Voyager

Once again I am walking down the crowded path Windows telling me to cry in the aftermath

My brain is overflowing First signs of madness showing now!

I am lost In this world of sensation I am lost In the overflow I am lost In the information

I am lost So I'm laying low

So I cover my ears but still I'm hearing the sound Won't anyone sleep until I drown?

My brain is overflowing Second signs of madness showing now!
