Time for you to try something new

Come on it's
Time for you
to arise from the blue

Time to for the tears to dry Time for the years to go by Time for the years to arrive

I saw the sign from a million miles away saw the sign Take it all and seize the day

Take it seize the day

Now, now that I'm all on my own
Now that I do this alone
Now that I go down the path of self I

See, see that I planted the seed Tore all this poison from me Tore all this poison from me and so

I saw the sign from a million miles away saw the sign Take it all and seize the day
