

Stare Into The Night

Voyager

Lonely nights take me down to the riverside and I know what you
're gonna do there.

Precious times I know are hard to come by, and I know what you'
re going to say to me...

I just want you to understand that you are my friend and nothin
g can change that for me. Can it change it for you?

Because then I'm gonna tell you that I am not in this game unle
ss you tell me what you say is true.

Into the sky I go and I don't know why I am here now
Figure it out if you can believe this
Something is there I know but I stare into the night, stare int
o the night with you

This is not what you think
This is not what you know
Let me tell you that don't understand so let me go away
And I tell you what you're doing to me is not what you have wan
ted all this time to be!
