

## The Devil In Me

Voyager

Can you look in my eyes?  
Again you find me emotionless  
The blood is cold in my veins  
I don't respond to your sweet caress

Oh I wish I knew how it must feel  
I am not the only one  
I am just the devil's son  
I feel the light of day again  
I am not the only one  
Taking cover from the sun  
I walk the night and sing  
I am just the devil in me (5x)

I taste your love on my lips  
I smell your neck and it makes me weak  
These frozen tears in my eyes  
As I return to my daylight sleep

It's just the... devil in me

I am not the only one  
I am just the devil's son  
I feel the light of day again  
I'm not the only one  
Taking cover from the sun  
I walk the night and sing

Again you look into my eyes  
I'm just the devil in me  
Again you make me lose my mind  
I'm just the devil in me

Again you look into my eyes  
It's just the devil in me  
Again you make me realize  
It's just the devil in me
