## **High on the Flames**

Guess I've been bad all my life Yeah I've sinned - bad all the time I should have never learned To play with fire - Oh, no, no

I got my front seat in hell That my momma said I would get And all us dirty devils there Are high tonight

Yeah I know that I should have learned If ya play with fire ya burn No deposit, no return On my life

Oh but there's a party down in flames And I got no time to waste No I ain't feeling no pain Too high to die

Oh, I'm getting - high on the flames Oh, I'm gonna - ride on the flames Oh, I'm getting - high on the flames Oh, tonight Too high to die
