You see me, a man and machine
All my life so hungry and lean
Watch me bleed and I feel no pain
I'm going wild and slowly insane

Mantronic, I'm on the loose Bionic, my neck in the noose Mantronic, I'm still the king Bionic, half man and machine

One fast lane, on top of the world Balls of steel, mechanical pearls I pay my dues and suffer alone Feel like hell and cut to the bone

Mantronic, I'm on the loose Bionic, my neck in the noose Mantronic, I'm still the king Bionic, half man and machine

Be careful nowBecause what you wish for Just may come true
If you look
Behind that door

Mantronic, I'm on the loose Bionic, my neck in the noose Mantronic, I'm still the king Bionic, half man and machine
