

Never Say Die

W.A.S.P.

Never say die
Never say die, no, no
Never say die no more

Never say die
Never say die, no, no
Never say die my boy

Where will we go from here
My Neon One
Or will we wander from now on
Is there a promised land we hear
Of ever Neon sun
Take us all down to you Heaven
My pagan son

Lead us a thousand years
Red rising sun
Stoned wilderness
And give us love
You blew a breath into our ears
With your dying dove
Are we all hellbound forever
My heathen son

Never say die
Never say die, no, no
Never say die no more

Never say die
Never say die, no, no
Never say die my boy
But where do we go from here
We really wanna know
It is down, down, down, down
Or is it our Neon God
