Resurrector

Fall before me And bring me love In here we are all pagan Naked celebrations of

Oh, we are the dark descending Feel the magic The never ending son Oh, we are the lost ascending Last of Eden Never ending heathen love

Show me your Blind submissive love Paint my name across Your face in everlasting blood

Won't you come to me Don't you believe in your god of love I'm your god you need I'll give you heathen love

Oh won't you believe I come to breathe life into your doves And I'll make you see Make all believe neon

Change us all forever Claim us all for life Take us all to your heaven Change us all for love
