

## Running Wild in the Streets

W.A.S.P.

I'm looking to beat hell, looks like  
I've got to run to be the leader  
As my forces yell, you can hear 'em, can't you hear them?

All the way-we'll go the distance  
All the way-stand behind me now  
All the way-no turning back  
All the way cause we are together

I'm standin' proud, we're screaming loud  
I'll lead the crowd  
Running wild in the streets  
A heavy dose of mean, yeah, I'm a lethal combination  
Hear my forces scream, you can see them, can't you see them?  
All the way-we'll go the distance  
All the way-stand behind me now  
All the way-no turning back  
All the way we are together

I'm standin' proud, we're screaming loud  
I'll lead the crowd  
Running wild in the streets
