```
I'm looking to beat hell, looks like
I've got to run to be the leader
As my forces yell, you can hear 'em, can't you hear them?
All the way-we'll go the distance
All the way-stand behind me now
All the way-no turning back
All the way cause we are together
I'm standin' proud, we're screaming loud
I'll lead the crowd
Running wild in the streets
A heavy dose of mean, yeah, I'm a lethal combination
Hear my forces scream, you can see them, can't you see them?
All the way-we'll go the distance
All the way-stand behind me now
All the way-no turning back
All the way we are together
I'm standin' proud, we're screaming loud
I'll lead the crowd
Running wild in the streets
```
