

Shadow Man

W.A.S.P.

Asleep in black
There's no light in the crack
The crooked fingers for you
No don't ya dare say a prayer
It's just the nights in your mare
Oh the long forever you'll do

No mercy - no coming back
No mercy - forever fade to black

Oh where's the god that made you
Oh you're superman
Going down forever - to never land
Oh where's the God you pray
Forsaken again
Never knew forever
The Shadow Man

Oh free at last
With a heart in the black
Forever shadowing you
Don't you swear to the terror
Your god never cares
Oh come oh whatever your do

Where's the god that made you
Oh you're superman
Going down forever to never land
Don't runaway or hide again
No gates of Heaven
