Show No Mercy

W.A.S.P.

I, I hear the mighty engines roar
And I unleash the savage dogs of war
Ooh, I'm the outlaw that rides

White anglo saxon, a violent reaction
Fire is my fuel, steel and iron rule

Ride on wasteland
A madman's badland
Ride on wasteland
And I will survive to show no mercy

I can feel the cycles as they turn
And I can smell the bodies as they burn

Ooh, the city's on fire

White anglo saxon, a violent reaction
Fire is my fuel, steel and iron rule

Ride on wasteland
A madman's badland
Ride on wasteland
And I will survive to show no mercy

Pain and hunger all across then thunder
Life is for the biggest, it's survival of the fittest

Ride on wasteland (show no mercy)
A madman's badland (on you)
Ride on wasteland (show no mercy)
A madman's badland (on you, on you, on you)
