Listen to me now

No words, I can say, can describe

How I hate your fucking face

And do you hear me now

You stole my soul with your lies

Your killing zone's where I lie

There you watched me die

You fucken suck

Can you see yourself I lie in my bed
Fantasizing your death
Here I lie
Can you see yourself
And how do you sleep with what you are?
What you turned out to be
Fuck you, kill yourself

You fucken suck

Liar you know I do I wish you well Liar I died for you I wish you well in hell... in hell
