Wishing Well

There's place where I'm Oh - with sorrowed lives And all the souls Oh - they're wishing they could die

Take me down And drown this the orphan forever Ya know I do Wish away the pain And wash away my life Find me down inside a shallow pool Down a wishing well No more bleeding

No more screaming tonight

Wash away my pain Oh - in the well of sighs For I have no face - oh Abandoned for all, for all time

Why, why am I nothing? Oh mamma why, why'd you leave me A throw away for life Oh - oh why, why am I nothing Oh and mamma why Can you feel me there Oh God I wanna die
