

Comes Down Like Rain

W.E.T.

Uh Yeah!

There's heat in the edge of night
My heart's beating double time
I feel a hunger from deep inside
We stood close, just skin on skin
I can't breath when you let me in
Some call it love, some call it scene

Every touch, every kiss
Every move, everything is on fire
Hold me close, hold me tight
I can't stop, I can't get enough
And it comes down like rain
Yeah, it comes down like rain

I got a glimpse of eternity
I got faith in you and me
Let my love set your spirit free

I want more, I want you
On and on, don't hold back your desire
Got a bad, feel so good
Closing in to explode again

And it comes down like rain
Yeah, it comes down like rain
Never felt so alive, wanna scream, wanna cry
Hold me in your arms, make it last all night
'Till it comes down like rain, woah
'Till it comes down like rain

And it comes down like rain
Yeah, it comes down like rain
Never felt so alive, wanna scream, wanna cry
Hold me in your arms, make it last all night
'Till it comes down like rain
Rain
