

## Damage Is Done

W.E.T.

The gaps are bigger now than ever before  
The pace is up more is craving much more  
Says it's alright it's business as usual

When the trees are gone and rivers are dead  
And the billions crying out to be fed  
Then it's too late to tell them we're sorry, oh

This is my belief  
You are just like me  
When we're cut we bleed

So, we burn every bridge one by one  
Never look back just march on  
What have we won  
The damage is done

Every step we take is painted in blood  
Running down from our hearts like a flood  
What would love do and where would it lead us, oh

The wheels been spinning round for so many years  
Still we're walking down the trail of tears  
All the races are walking together, yeah

This is my belief  
You are just like me  
When we're cut we bleed, oh

So, we burn every bridge one by one  
Never look back just march on  
What have we won  
The damage is done  
The damage is done  
The damage is done  
The damage is done, oh

This is my belief  
'Cause you are just like me  
When we're cut we bleed  
Oh, we bleed

We burn every bridge one by one  
Never look back just march on  
What have we won  
There's no way to run  
What have we done  
The damage is done
