

## Love Heals

W.E.T.

There's a voice that's crying from the wasteland  
Says I don't know where to go from here  
I've been gone so long here in the wasteland  
My days and months turn to years

Noise inside my head  
It scares me half to death

But love heals, love feels alive  
'Cause love's here when you're by my side  
And love frees, love's real this time  
And love sees the man here inside  
Love heals  
Love heals

I have tried so hard to be a sane man  
But my demons never disappear  
I have hurt you, cursed you but you still stand  
Helping me to see my fear

Noise inside my head, oh  
It scares me half to death, yeah

But love heals, love feels alive  
'Cause love's here when you're by my side, yeah  
And love frees, love's real this time  
And love sees the man here inside, oh

Love feels

Whoa oh, oh oh  
Whoa oh, oh oh  
Whao oh, oh oh oh

And love heals, love feels alive  
'Cause love's here when you're by my side, yeah  
And love frees, love's real this time  
And love sees the man here inside, yeah yeah yeah

Whoa oh, oh oh  
Whoa oh, oh oh  
Whao oh, oh oh oh

'Cause love heals  
Yes, love heals  
It's true  
Love heals
