There's a voice that's crying from the wasteland Says I don't know where to go from here I've been gone so long here in the wasteland My days and months turn to years

Noise inside my head It scares me half to death

But love heals, love feels alive 'Cause love's here when you're by my side And love frees, love's real this time And love sees the man here inside Love heals

Love heals

I have tried so hard to be a sane man But my demons never disappear I have hurt you, cursed you but you still stand Helping me to see my fear

Noise inside my head, oh
It scares me half to death, yeah

But love heals, love feels alive 'Cause love's here when you're by my side, yeah And love frees, love's real this time And love sees the man here inside, oh

Love feels

Whoa oh, oh oh Whoa oh, oh oh Whao oh, oh oh oh

And love heals, love feels alive 'Cause love's here when you're by my side, yeah And love frees, love's real this time
And love sees the man here inside, yeah yeah yeah

Whoa oh, oh oh Whoa oh, oh oh Whao oh, oh oh oh

'Cause love heals Yes, love heals It's true Love heals
