

Not Finished Yet

Wade Bowen

You had me down
And I lost my way
I was looking for signs
Every single day
Please by all means don't call me back

Should I be ashamed?
Should I run back home?
Should I shut my mouth?
Leave this mess alone
But I've got time and the rhythm won't let me sleep
And the wind is blowing hard out

And I'm not finished yet
I got one song left to sing
And it won't make me rich
But it just might keep me sane
And I'm all out of words
Cause you pushed me from behind
I never asked anything of you
But thank you for my line

Girl finds a boy
Girl falls in love
They fly away in a pickup truck
That's the way that it ends on the highway
Yeah, that's the way that it ends around here

Just one more thing
Before I shut my mouth
Perhaps I left a few pieces out
If you want to hear the rest you just leave a message
Yeah if you want to hear the rest
