

# If I Wanted To Forget

Wade Hayes

I don't have to go  
to those places that we used to go to  
I could stay away for days on end  
If I wanted to  
And I don't have to keep  
Your picture by the bed to help me sleep  
I could find another dream to dream  
If I wanted to

I don't have to still be in love with you  
With your memory running  
through my head  
I could get over you  
Anytime I wanted to  
If I wanted to forget  
I just don't want to yet

I don't have to live  
With this heartache that you left me with  
I could simply get you off my mind  
If I wanted to  
But then I'd leave behind  
All the moments that were  
yours and mine  
And I don't think that's something  
I could do  
If I wanted to

I don't have to still be in love with you  
With your memory running  
through my head  
I could get over you  
Anytime I wanted to  
If I wanted to forget  
I just don't want to yet
