

# She Used To Say That To Me

Wade Hayes

Let's take a rest  
Your kisses take my breath  
You are the best  
It's never been like this  
She used to say that to me  
Over and over so sweet  
She'll tell you she'll never leave  
She used to say that to me  
It thrills you so  
When she whispers soft and low  
"Please hold me tight  
I need your love tonight"  
"I'm yours," she sighs  
And she means it at the time  
But someday she'll go  
If you're wonderin' how I know  
She used to say that to me  
Over and over so sweet  
She'll tell you she'll never leave  
She used to say that  
She used to say that to me  
Over and over so sweet  
She'll tell you she'll never leave  
She used to say that to me  
She used to say that to me
