## What I Meant To Say

Wade Hayes

Last night I told a lie When I told you I could say goodbye Here in the light of day What a crazy thing for me to say

What I meant to say was I love you What's been killin' me is I hurt you What I didn't do was hold you when I saw the teardrops fall What I should've said was I'm sorry What I should've said was forgive me What I meant to say was what I didn't say at all

Last night I had a dream You were really walking out on me I woke up scared to death Please forget about the things I said

What I meant to say was I love you What's been killin' me is I hurt you What I didn't do was hold you when I saw the teardrops fall What I should've said was I'm sorry What I should've said was forgive me What I meant to say was what I didn't say at all

What I meant to say was what I didn't say at all
