

## Shiny Apple

The Waifs

Shiny apple rotten on the inside  
Skin is smooth but your soul is soft  
Oh you look so appetising but  
Taste the truth it'll make you spit

And how long have I known you now  
But I knew after just one taste  
And how long has my mouth been sour  
It's been sour ever since that day

And how long can I go on like this  
Knowing what I know anyway  
But it makes me feel helpless to  
Stand and watch while you rot away
