

## Danny Glover (Remix)

Waka Flocka Flame

2 door coupe, 400 chips  
Jacob watch cost two bricks  
Throw another rack cause she doin' splits  
I got a bag of molly's, know she wanna lick  
Make a girl kiss a girl  
Turnin shit in the molly world  
And then she geekin off them drugs  
Makin faces like Lil Durk  
Don't need a compliment cause I know I'm the shit  
All this ice on me, I'm froze in this bitch  
Look like I'm selling dope, nigga stove in this bitch  
All these girls wanna fuck like gold on my dick  
Everywhere I go boy you know this shit lit  
His Rolex tickin, that nigga counterfeit  
Bitch from the tribe bitch, come and free ride dibs  
I only blow gas, don't fuck with the mix  
Diamonds flashin like paparazzis takin pictures  
I don't fuck with lames, I fuck with real goons killers all my  
niggas they the realest  
Flockaveli 2 on the way, I see these pussy niggas catchin' feelings  
That fresh and new, it's just business, I'm the illest  
Come fuck with me, let's make millions  
Flocka!
