

Ground Zero

Wakefield

Don't worry about the time
Just watch the sun set
I keep my feelings bottles up
About things that I regret
Oh can it be up to me right now?
Everythings so lovely in the sky right now
I want to take it back
But I dont know how
Can you chase the rainbow?
To find its tail
Take me to your ground zero
Back again
I simply wish that I could
Feel the way you do
I just start again
Standing next to you
Gone overboard
In the storm of hate
Everythings so lovely in the sky right now
I want to take it back
But I dont know how
Can you chase the rainbow?
To find its tail
Take me to your ground zero
Back again
