

# Heaven's Coming

Wakefield

I've never met someone  
Quite like you  
Sorry for what I've done  
And put you through  
We were together that night  
When it all went wrong  
Heaven's coming

She moves over and slides  
Her hand in mine  
The wheel slips and we cross  
The double lines  
We were together that night  
When it all went wrong  
Heaven's coming

We finally came to a stop  
On the other side  
You were still in the car  
So where was I  
Somebody wake me up  
I swear I must be dreaming  
This can't be happening  
I feel her screaming

In the end

Don't cry tonight  
And I know that it will be alright  
Don't cry tonight  
You're still with me

Now I'm older, still lonely  
But you're by my side  
I can't help but get choked up  
Break down and cry  
Held your last breath in my hands  
But I let it go  
God forgive me

In the end  
In the end

Don't cry tonight  
And I know that it will be alright  
Don't cry tonight  
You're still with me

Don't cry tonight  
And I know that it will be alright  
Don't cry tonight  
You're still with me  
You're still with me
