

Away

Wakey!Wakey!

I want to lie in this gutter with you
Close our eyes and wait til this thing passes through
Put on our favorite shirts, pretend we don't hurt
And go out the way that we used to do

But it's all gone away and it's all on me
It's all gone away since the doldrum days came

Fall on my knees and say all of the things
You wanted to hear when you walked out on me
Forget all our sins and just let this begin
When you knocked on the door and I let you back in
But the windows are blacked
And the baseboards are cracked
The roof's caving in, and your not coming back

Because it's all gone away and it's all on me
Yeah it's all gone away since the doldrum days came
It's all gone away
It's all gone away
Itts all gone away
It's all gone away

It's all gone away
