

## Feral Love

Wakey!Wakey!

Arm your guards, un-break your horses  
Ours is feral love  
Call your dogs and special forces  
All will come undone

But I bet you don't go crazy like you used to  
But I bet you don't go crazy like you used to  
I bet you don't go crazy like you used to  
When you used to get down with me...

Flee the scene, we scream ceasefire  
Look at what you've done  
All your men, and all your horses  
Scream enough's enough

But I bet you don't go crazy like you used to  
But I bet you don't go crazy like you used to  
I bet you don't go crazy like you used to  
When you used to throw down with me...

My love what have you done  
My love what have you done  
My love what have you done  
My love what have you done

My love what have you done  
My love what have you done  
My love what have you done
