

## Take Me With You

Waking Ashland

It's so dark now that I can hardly tell  
If my eyes are closed or open.  
Yeah I've got no way of knowing  
It's so quiet now, I can't sleep at all tonight.  
And all I can hear are my lungs breathing  
and the sound of my heart beating.  
Take me with you  
I can't seem to  
get these thought out of my mind  
every time I close my eyes

Now I'm feeling like a blind man seeing  
that the problem's in my head and not my eyes  
Your example now is not much of a help  
But it doesn't matter much to me, I'm thinking for myself  
I'm drinking now from a different well  
And I'm drawing from the deepest, so I don't go to hell  
Take me with you  
I can't seem to  
get these thought out of my mind  
every time I close my eyes  
Now I'm feeling like a blind man seeing  
that the problem's in my head and not my eyes
