

Silver eyes  
Thrill me with your lies  
Sentimental feelings never die

Yellow  
Words upon the ground  
Yellow birds  
Take me to their song down  
Singing

Floater, some  
The wind you feel is real okay with me

Cobalt  
The world of colour feeling  
Tell you what  
The land of near and dealing  
Wants you

Green back  
Nine one three two five  
No return  
Once you've gone alive  
Screaming

Soma, soma
