

Morning Light

Waldeck

It's hard to leave you
To be without you
The further out the more alone
It's cold when I'm all, by myself
Not used to being on my own

I'm tryin' to make it through the night
Wishing you still by my side
But I'm not lookin' back
Sticking to the track
Headin' for the morning light

But I'm not lookin' back
Stickin' to the track

It's you I'm missin'
When I wake up
In the morning so alone
A day can be long, fighting memories
When grief and doubt are getting strong

I'm trying to make it through the night
Wishing you still by my side
But I'm not looking back
Sticking to the track
Headin' for the morning light

But I'm not lookin' back
Stickin' to the track
Headin' for the morning light
