

## Slowly

Waldeck

Slowly  
Disconnection makes it's way between us  
Our affection drifts away to cleave us  
Restitution falls away  
Slowly

Slowly  
Twisted information sliding by me  
Mental alienation meanin' surely  
Your mind behind a firewall will elude me

Slowly  
Slowly  
Slowly  
Disconnection  
Disconnection

Slowly  
My hundred mile long arms  
Will reach out to me  
The two halves of a soul will ever be two

Disconnection
