

## Wake Up

Waldeck

Theres a guide to take me home  
Led me through the night  
Stood against the storm  
And taught me pride  
Did they weigh you down  
Did they boil the salt  
Did they mess you up  
In your fancy loft baby  
Theres a smile that broke my heart  
That sparkles in your eyes  
Your falling apart  
Now your living lies  
Did they change the rules  
Without telling you?  
What a suprise  
Who needs who now baby  
Take a break and come down  
Take a chance and start  
Take a look in the mirror  
Take the pill to wake up  
Take a break and come down  
Take a chance and start  
Take a look in the mirror  
Take the pill to wake up  
Wake up

Theres a spirit of our youth  
Wont solves your thoughts  
Used to care about truth  
And fight against the odds  
Did they make you trade  
The dreams of old  
Did they tell you  
It was cool to be cold baby  
Theres a light that you once shown  
Clouded you la don ??  
Everything is lone  
And everybody is gone  
Was life rough on you  
Did it fit no more  
As we fibbin you to my dorm ??  
Now baby

Take a break and come down  
Take a chance and start  
Take a look in the mirror  
Take the pill to wake up
