I used to sleep hungry in a bed next to roaches Now I wake up, play a beat and burn a couple roaches Permanently focused, learning while I'm going And the word most important Don't regurgitate my sperm Let me work that - no nasty But I'm actually quite respectful But you call a bitch a bitch And real bitches don't respect you And that's fucked up But I guess that shit's just tough love Around my way, I'm cut throat And what I did just ain't enough Fly shit ain't not thang to us.. 20 somethin', no baby ma Mama want me to go find a wife I'm like sorry ma, this not the time Can't decide, take em out G'd up, shake it down Weed up, better make a sound

Greened up, I'm like De La Salle
Higher than high school
Mariah tunes and five flutes
Or 5'2" hoopers in light shoes
Never liked school
Reckless when I move
Where I from, it get cold
Niggas die over shoes
Niggas shoot over bitches
Bitches get niggas set up
Stuck up beat up and wet up
That's why I never met em
That's why forever I love seldom and trust never
And fuck whoever don't put one hundred percent in
Nigga
