I was in the business and you was chasing the pussy  
Now I got the dollars, I'm tryna get my position  
Couple bad decisions, I got some character issues  
I blow another slippin like Stevie tryin permission  
They sayin the weather, the more could try and get me  
Sure I love my friends, carry paraphernalia  
Fall in love with things, you should go and marry civilian  
Picture a young rich former taking me serious  
I thought I had my shot and even in my prime  
Singles in the chart make a broad lose top  
These days, ain't gotta do nothing to pop these days  
Instagram is runnin they thoughts these days  
These 62 joints, got me duggin on em  
I'll go get my clap and now I'm stuntin on em  
You better know that you overdue for some better inners  
That's whoever developed second-guessing they blammers, word

I don't like to boast but man you touchin the floor  
Fair pussy, put everything in this cone  
My only feelin mere, she scared of being alone  
She settle for this bitch, she starin she be a trophy  
I'mma probably marry somebody ready familiar  
VH1 team all I'm thinkin about is this  
Can do without the pennies, another bro record up in the business  
Had that locked since I lost my scholarship  
Bout me getting it to my old coach I'm ballin  
Rose glow with 40  
Shall we record it mane? Grab the 40  
To me the thought of money would change it and got worse  
But it's a lot better than the screaming who got worse  
I'm holding it from back to packin it on that 30  
I never sold crack when crack rappin was workin  
With that fat just backpackin and murkin  
Get in that, probably he know why you're Mr. Perfect
