

# I'll Be Waiting

Walk Off the Earth

Life is hard and the living rough  
But these are the times when you gotta stand up  
Don't let them break them down or tear you up  
These are the times when you gotta stand up

We can turn it around  
We can turn it around

And I'll be waiting here for you  
Till the sun comes up and the stars fall out  
I'll be waiting here for you  
You know I will be,  
I'll be, I'll be waiting, waiting, waiting  
Till the sun comes up and the stars fall out  
I'll be waiting here for you  
You know I will be, I'll be waiting

Day by day it might be hard to do  
But these are the times when you gotta push through  
Can't let them break you down or bend the truth  
These are the times when you gotta push through

We can turn it around  
We can turn it around

And I'll be waiting here for you  
Till the sun comes up and the stars fall out  
I'll be waiting here for you  
You know I will be,  
I'll be, I'll be waiting, waiting, waiting  
Till the sun comes up and the stars fall out  
I'll be waiting here for you  
You know I will be, I'll be waiting

Never let them see you break in the middle  
Let your heart get too little or get lost in the rhythm  
Never let them see you break in the middle  
Let your heart get too little or get lost in the rhythm

And I'll be waiting here for you  
Till the sun comes up and the stars fall out  
I'll be waiting here for you  
You know I will be,  
I'll be, I'll be waiting, waiting, waiting  
Till the sun comes up and the stars fall out  
I'll be waiting here for you  
You know I will be, I'll be waiting
